

# ONE OCEAN, ONE PLANET, ONE ARTIST

# WYLAND

SPECIAL LIMITED EDITION LITHOGRAPH

## *Ocean Calling*

original oil painting by Wyland© 2004

The waters of our planet teem with life, from the thriving ecosystems of the tropical rain forest to the kaleidoscope of life among the world's coral reefs. In "Ocean Calling," Wyland pays homage to the creatures who depend on pristine marine habitats for their very survival. "The pod of dolphins in this painting represent the pinnacle of this important ecosystem," Wyland says. "They're incredibly intelligent. But like humans they depend on cooperation and a clean habitat to survive."

**VALUED AT \$790.00**
